**CDBG Funding for Rowland Street Infrastructure Improvements Project**

Village Manager Sarratore gave an update and description of the \$2,000,000 Community Development Block (CDBG) grant for the Rowland Street Infrastructure Improvements Project for which the Village applied. The match funds for this project are \$407,000 from multiple funding sources. The proposed activities were reviewed and voting on any necessary resolutions will take place at the Special meeting following this public hearing.

**Public Comments:**

Laura Mallane asked about the possibility of installing sidewalks on Rowland for pedestrians. Village Manager Sarratore responded that other residents have asked the same question and our engineers are already looking into that but there may not be enough space for it. President Johnson added that it would possibly work on the south side.

President Johnson asked if this project will also address underground infrastructure. Village Manager Sarratore answered that it will address all underground infrastructure listed in any of our asset management plans.

**Adjournment:**

President Johnson closed the public hearing at 6:33 pm.
